**QUESTION 1:**
Will the site be using the current poles for the Backstop System?

**ANSWER 1:**
No, new poles will be required per section 3.2

**QUESTION 2:**
If not, will you require new poles, along with installation?

**ANSWER 2:**
Yes new poles required. Installing all materials required

**QUESTION 3:**
Will the Backstop system need to be engineered and stamped?

**ANSWER 3:**
Yes by a structural engineer registered in the state of Oklahoma. per section 3.2. B.1

**QUESTION 4:**
Can a scope of work narrative be provided? I am unable to determine from the info provided what we are to include in our bid. It is unclear to me if we are to include fencing, sodding, scoreboards, dugouts, and what earthwork will be included in the project. If these items are to be included we will need more information on quantity and materials.

**ANSWER 4:**
Provide and install Complete Backstop stop netting system with associated engineering and 3 additional bored holes. Other items shown on drawing to provide detail in locating back stop system and additional borings
